Nutrition & Fitness In-Service Training

National Food Service Management Institute
University of Mississippi

Receive up to 16 CEUs

Panama City, Florida

NFSMI Training

The National Food Service Management Institute (NFSMI) provides face-to-face training free of charge on a variety of child nutrition management topics. Trainings occur both at NFSMI's headquarters at The University of Mississippi in Oxford and upon request throughout the United States and its territories.

July 29, 2015

Serving Safe Food in Child Care

(6 hours)

Food safety training for child care employees using the four key concepts of the USDA Fight BAC program: Clean, Separate, Cook, Chill.

Norovirus for Child

Describe why norovirus is a concern in childcare settings. List the symptoms of norovirus and describe how it is transmitted. Describe norovirus prevention and control strategies. (**P**revent, **A**ssemble a Body Fluid Cleanup Kit, **R**espond to an incident, **T**otal cleanup)

Nutrition 101: A Taste of Food and Fitness

(8 hours)

This course qualifies for SNA core course certification level 1. This training provides a basic overview of nutrition with an emphasis on the importance of balance in daily food choices and the inclusion of physical activity as a key component to good health.

National Food Service Management Institute

July 30, 2015

Foundations for Training Excellence

(8-hours)

This training models techniques to actively facilitate adult learning. Throughout the course, trainers demonstrate how to deal with different learning styles, engage the learner in a wide range of activities without over-relying on slide presentations, and establish a positive learning environment.

Happy Mealtimes for Healthy Kids, 2nd edition

(6 hours)

Training designed to teach child care staff best practices for feeding children. Includes basic evaluations, simple handouts for staff and parents, interactive activities, and a detailed training script for the trainer.

More Than Mud Pies:

A Nutrition Curriculum for Preschool Children

This training shows how to utilize the More Than Mud Pies nutrition curriculum to teach preschoolers about food and the importance of good nutrition. The curriculum includes 54 lessons organized around the seasons that encourage positive ideas and participation in food and nutrition activities.

Simple lesson outlines list objectives, advance preparation, classroom activities, supplies, books, songs, recipes, and ways to involve families.
